What's new on SHREC?

During the last half a year, the world has changed, yet, the SHREC project continues 🙌. From new cooperations, launched programs for more sustainable energy use to the world's biggest solar dike and remote solar platform – this is what the partner countries have been up to for the last few months.

HIGHLIGHTS

- 🌟 *SHREC and ALPGRIDS cooperation*
- 🌟 *Launched program for ecological lighting in Romania*
- 🌟 *World's first remote solar platform opened in Lithuania*
- 🌟 *Groningen Seaports starts building the first and biggest solar dike in the world in the Eemshaven*
- 🌟 *Groningen Seaports intended to launch Europe's largest green hydrogen project*
